\$195

From Only
(Plus shipping & handling)

- Occlusal coverage discludes molars for free distal movement
- Full arch coverage provides solid anchorage for maximum molar distalization with minimal unwanted flaring of anterior teeth - no headgear necessary
- Distalize first and second molars at the same time
- The Unilateral Distalizer will distalize one side without affecting the other
- Designed for Orthodontists by an Orthodontist, Edward A. Cronauer, D.M.D.
